CT-Eye ProteX / CT-Gland ProteX

Effective radiation protection for the eye lens and the thyroid gland during CT examinations

T-Eye ProteX

CT-Gland ProteX

Radiation Protection

SOMATEX® sets new standards for active radiation protection.

Due to an increased risk to eye lenses and the thyroid gland during CT examinations protection is strongly recommended.

- Substantial reduction in radiation exposure
- Lead and latex free
- High quality 5 mm polyurethane foam laminated with velour reduces artefacts of eye protector
